

"PROFESSIONAL PUBLIC SPEAKING WORKSHOP"

Many people when asked to speak in any capacity have some sort of Glossophobia – and literally gloss over the event, just to get it out of the way. When you are well equipped with all the techniques, tips and tricks of a great orator, the fear often gives way to passion and dynamism. A well written speech however will often fall flat because they are not meant to be read – they are meant to be heard and seen. Too often the role of the voice and body are overlooked, and that is why my workshops are one hundred percent practical – there is absolutely nothing learnt in theory.

The “Professional Public Speaking Workshop” is a four part course designed to take you through the entire process, from content creation to presentation performance. Each participant will craft, develop and deliver a five minute speech for their individual scenario or speaking engagement. It is for anyone who would like to build confidence in situations requiring them to stand up and speak in public: business presentation, wedding speech, sales pitch, informative lecture, TED talk... The workshop takes place in an informal, playful and relaxed atmosphere in order to practice all the techniques taught and walk away with a personal blueprint to apply to any speaking situation.

Part I – “The Speech”

Honing Message

Content Creation

Rhetorical Devices

Visual Aid Design

Openers & Closers

Props

Note Cards
